-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

ELECTION/RESTRICTIONS

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 and 2, drawn to a pressure compensated core barrel apparatus, classified in class 175, subclass 403.
 - II. Claims 3-14, 42, and 43, drawn to a piston assembly for providing a fluid seal within an inner barrel assembly of a core barrel apparatus and the method of providing the seal, classified in class 166, subclass 153.
 - III. Claims 15-18, drawn to a valve assembly, classified in class 166, subclass 316.
 - IV. Claims 19-21 and 44-46, drawn to a near-bit swivel assembly for supporting an inner barrel assembly within an outer barrel and the method for supporting the barrel assembly, classified in class 175, subclass 320.
 - V. Claims 22-41 and 48-51, drawn to a sponge layer, the means and method for securing that layer in the barrel apparatus and methods for using the sponge layer, classified in class 175, subclass 425.
2. The inventions are distinct, each from the other because of the following reasons: Inventions I-V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Inventions I-V have separate utility such as being used in any other wellbore tool such as another type of drill bit. Further, each of the subcombinations is claimed specifically independent of the other subcombinations and contain features not included in the other subcombinations. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and the search required for one of the above inventions is not required for the remaining inventions, restriction for examination purposes as indicated is proper.
4. A telephone call to request an oral election to the above restriction requirement was not made due to the complexity of the restriction.

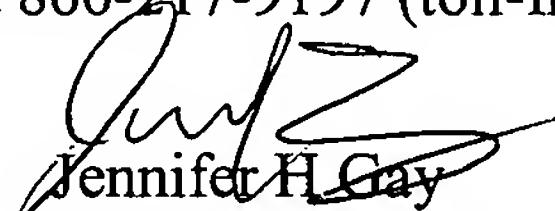

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer H Gay whose telephone number is (703) 308-2881. The examiner can normally be reached on Monday-Thursday, 6:30-4:00 and Friday, 6:30-1:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bagnell can be reached on (703) 308-2151. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
